

# Design, Construction, and Operation of a 150 Kw Solar-powered Irrigation Facility, Phase 2 (Final Report, 30 Sep. 1977 - 30 Sep. 1979, ALO-4159-1)

A solar powered experimental facility providing 150 kW of electric power for the operation of deep well irrigation pumps was designed and constructed. The solar collectors tracked on full automatic, and the power conversion system was started and operated on automatic control.
