

Your Dad Didn't Have to Die

This book explores what led to the tragic, premature, and avoidable death of a young man in what seems -- on the surface -- to have been an accident. Born with at least a fair share of God-given challenges, Sean-Michael Hennelly was caught by external factors. Among those -- & arguably the most important factor -- was his being caught in the pincers of parental conflict. Sean had one parent who denied some of his challenges & who claimed the other challenges were no big deal. While his other parent -- Sean's father & my friend -- repeatedly failed to win over Sean or his mother to the possibility of fulfillment by acknowledging & embracing the challenges God gave him. Join me in exploring many of the events & opportunities in Sean's life, and learn as you read from the choices & decisions -- maybe you will learn enough to save a life, a life like Sean's.
