

## More Coaching for Fatherhood: Teaching Men New Life Roles

Lewis Epstein addressed the crisis of fatherhood in *Coaching for Fatherhood* (1996), which promoted coaching as a step-by-step strategy to help men become more emotionally connected with their children. In this expanded follow-up book, the author includes new chapters such as Long Distance Fathering, Fathers and Divorce, and Gay Fatherhood to help men become influential and productive dads when far from their children, in the midst of divorce, or when facing barriers as gay men. Epstein's caring, practical approach shows how becoming a better dad dramatically improves both father and child, the family, and society at large.
