

30 Entrepreneurial Ideas for Asia: Get excited about the new possibilities ahead!

30 Entrepreneurial Ideas for Asia is a book that encapsulates the changing trends and faces of the Asia Pacific region, enabling the budding entrepreneur to have options in his or her road ahead. The book works at capturing the sounds and sights of the region, translating the opportunities into high potential small businesses with preferably good exit strategies. Ideas are kept nifty and business operations are tailored towards being profitable and self-sustaining in the shortest time possible. Other business growth concepts include constantly sanitizing the business value proposition, staying honest and taking extremely good care of the brand. These ideas are either inspired or an improvised version of existing businesses, tailored for both developed and developing cities across Asia, depending on the type of business. Though structured towards Asia, anyone can ride on this brainstorming and develop a love for entrepreneurship and think about your own life possibilities right here, right now! Readers will also get to read about entrepreneurial ideas such as the 10 eligible bachelors to 100 paying bachelorettes dating agency concept, an emerging markets specialist art gallery, branded Asian inspired fashion line and so forth.
