

The Service Service Manual

This book will tell you how to have better dealings in business and life. There are different ways to go about things. There is short term, there is long term, there bottom line, there is hustle, there is cutting corners, there is scarcity thinking, there is innovative thinking, there is pressure, there is patience, there is over-investment in the response of others. There is underinvestment in oneself. And there is self-focus, corporate focus, allegiance focus (family, friends, city, nation, us vs. them, etc.). There is what can I get out of this. And there is what can I offer others. There is a place of integrity. And there is a place of avarice, both in life and in business. And then there is a way to achieve what you want in many ways, including wealth and service, and serving others, implicitly achieved by integrating the lessons explained in this short book, into your business and life dealings. The rewards are much greater than just business dealing. They will encompass your entire life. And likely change everything about it. The reward contained in this book is much greater than what one can even see, but will also lead to a happier, more peaceful, and likely more successful life venture.

Revive your spirit. Restore your body. Discover your style.
